A message from the Canadian Science Publishing Executive Editor-in-Chief and Executive Director

Scholarly communication is an industry undergoing substantial and near-constant change. At Canadian Science Publishing (CSP), we know that scientific knowledge is powerful. We want to ensure that it is empowering. We do this by working with the research community, including librarians, to guarantee that our trusted, peer-reviewed publications and new scientific advances are easy to discover, use, and share.

Our role as a not-for-profit and mission-driven scholarly publisher is to collaborate with the research community to determine how best we can support them and to develop efficient systems and processes that validate and disseminate their work. We believe that collaborations and partnerships with libraries like yours are essential in making credible evidence recognizable and accessible to a broad audience.

We look forward to continuing our work with the scientific community, supporting researchers, and achieving our shared vision of a world where everyone is empowered with scientific knowledge.

On behalf of the entire CSP team, we thank you for your continued support.

James J. Germida, Ph.D.
Executive Editor-In-Chief

Suzanne Kettley
Executive Director

About Us

As a not-for-profit social enterprise, Canadian Science Publishing exists to meet the needs of the research community. With origins dating back to 1929, we are Canada's largest publisher dedicated to mobilizing scientific knowledge.

Our vision

A world where everyone is empowered with scientific knowledge.

Our mission

We are champions of scientific knowledge exchange, committed to strengthening the integrity, relevance, and reach of science. We ensure that scientific knowledge is easy to discover, use, and share.

Our promise

To strengthen the accessibility, integrity, and impact of scientific knowledge.

Our values

Integrity

We are honest, ethical, and fair in all our work.

Transparency

We embrace clear processes and communication.

Openness

We are advocates for accessible information.

Empowerment

We support others with knowledge, tools, and resources.

Forward thinking

We anticipate change, seize opportunities, and explore new solutions.

To learn more about Canadian Science Publishing, including our Board of Directors, strategic plan, and other services, please visit us at www.cdnsiencepub.com.

Executive Editor-In-Chief

James J. Germida, Ph.D.

Transparent Pricing

As a not-for-profit organization, we ensure that fair pricing does not come at the expense of client service or high-impact content. Our influential and technologically advanced publications undergo rigorous peer review, enjoy international reach to more than 125 countries, and are supported by editorial teams comprising world-renowned experts in their fields.

We appreciate that libraries and readers have choices. Our dedicated team is committed to responsive, accountable customer service and fair pricing.

As an independent, publisher, we owe our authors, readers, and subscribers transparency in our pricing. We continually review our internal processes to ensure that we produce our suite of high-quality, peer-reviewed journals as efficiently as possible to remain competitive with the larger companies in our industry. To ensure that we can continue to offer the level of service and quality that we believe our community deserves in the face of increasing production costs, we have increased this year's subscription rates by 2.9%. Although this increase is well below the industry average of 5%, we realize that higher prices are rarely welcome, and we are committed to continuing to contain the costs of publication to the best of our ability. All of our revenues are reinvested in supporting our mission: ensuring that scientific knowledge is easy to discover, use, and share.

What's New?

We welcomed two new journals to our portfolio in 2018

Both of these quarterly publications are available for purchase for the 2019 volume year.

Geomatica (page 33).

Transactions of the Canadian Society for Mechanical Engineering (page 35)

We launched our new strategic plan, *Empowered by Science*

We know scientific knowledge is powerful. We ensure it's empowering. See how we have renewed our commitment to science at www.empoweredbyscience.ca.

We redeveloped our blog

To further support the research community, we recreated our blog as a destination for discovering new research, exploring resources for life in and beyond the lab, and sharing perspectives on scientific research, culture, and communication.

Find out more at blog.cdnsciencepub.com.

How to Subscribe

All Canadian Science Publishing subscriptions are administered by ¹PPF. For all orders outside Canada, rates are in U.S. dollars.

Librarians can subscribe to CSP journals in several ways:

Online

On each journal homepage, use the "Subscribe Now" button under Journal Tools (right-side bar menu) www.canscipub.com/csp-journals

By email, phone, fax, or mail

Email: canadiansciencepublishing@subscriptionoffice.com

Phone, North America: 1 800 633 4931 | **Outside North America:** 205 995 1588

Fax: 205-995-1588

The Anthropocene is the period during which human activities have had a marked environmental impact on the Earth. Anthropocene Coasts seeks to identify and document the influence of these activities, including climate change, on contemporary coastal systems. Anthropocene Coasts publishes multidisciplinary primary research, systematic and narrative reviews, topical communications, and letters.

Note to librarians: Help us provide seamless access to open access content by verifying that our open access journals are ingested and indexed in your library catalogues. Canadian Science Publishing's open access journals are widely indexed in all of the major databases.

As Canada's first and only multidisciplinary open access science journal, *FACETS* publishes a broad range of technically sound research that contributes to advancing knowledge. The journal's multidisciplinary nature provides an innovative showcase for research in the global community.

Note to librarians: Help us provide seamless access to open access content by verifying that our open access journals are ingested and indexed in your library catalogues. Canadian Science Publishing's open access journals are widely indexed in all of the major databases.

For assistance in including *FACETS* in your catalogue, please email pubs@cdnsiencepub.com.
