## A Message from the Canadian Science Publishing Executive Editor-in-Chief and Executive Director

Scholarly communication is an industry undergoing substantial and near-constant change. At Canadian Science Publishing (CSP), we know that scientific knowledge is powerful. We want to ensure that it is empowering. We do this by working with the research community, including librarians, to guarantee that our trusted, peer-reviewed publications and new scientific advances are easy to discover, use, and share.

Our role as a not-for-profit and mission-driven scholarly publisher is to collaborate with the research community to determine how best we can support them and to develop efficient systems and processes that validate and disseminate their work. We believe that collaborations and partnerships with libraries like yours are essential in making credible evidence recognizable and accessible to a broad audience.

We look forward to continuing our work with the scientific community, supporting researchers, and achieving our shared vision of a world where everyone is empowered with scientific knowledge.

On behalf of the entire CSP team, we thank you for your continued support.

**James J. Germida, Ph.D.**

*Executive Editor-in-Chief*

**Suzanne Kettley**

*Executive Director*

## About Us

As a not-for-profit social enterprise, Canadian Science Publishing exists to meet the needs of the research community. With origins dating back to 1929, we are Canada's largest publisher dedicated to mobilizing scientific knowledge.

### Our Vision

A world where everyone is empowered with scientific knowledge.

### Our Mission

We are champions of scientific knowledge exchange, committed to strengthening the integrity, relevance, and reach of science. We ensure that scientific knowledge is easy to discover, use, and share.

### Our Promise

To strengthen the accessibility, integrity, and impact of scientific knowledge.

### Our Values

#### Integrity

We are honest, ethical, and fair in all our work.

#### Transparency

We embrace clear processes and communication.

#### Openness

We are advocates for accessible information.

#### Empowerment

We support others with knowledge, tools, and resources.

#### Forward thinking

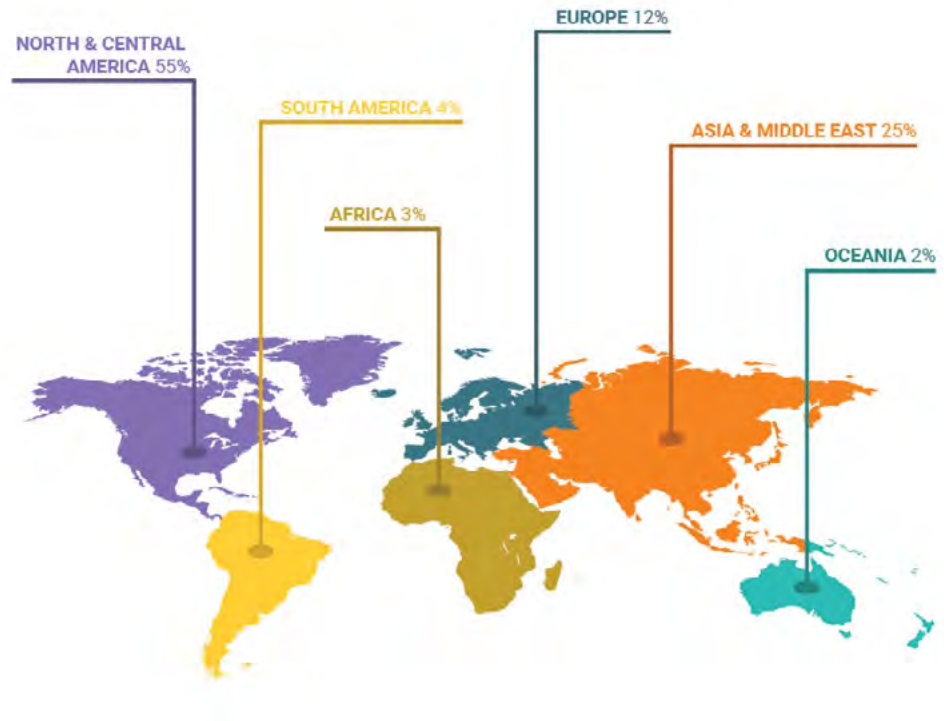

We anticipate change, seize opportunities, and explore new solutions.

## Canadian Roots, Global Impact

Since our origins in 1929, Canadian Science Publishing (CSP) has grown to become Canada's largest publisher of international scientific journals. We currently own and publish 24 diverse journals with distribution in over 125 countries. Featuring content from a global community of researchers, CSP publications are supported by a team of internationally renowned subject-expert Editors and peer reviewers.

### CSP Submitted Manuscripts by Author Origins in 2018

## Our Open Access Options

**We are proud to offer flexible publishing options for Canadian and International researchers**

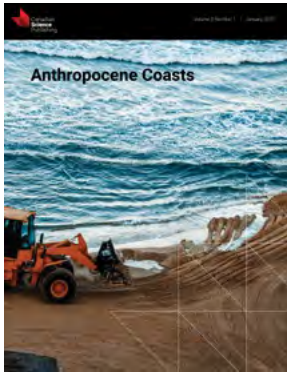

- Authors retain copyright of their published works and are free to reuse their own material without seeking permission
- Authors can self-archive their submitted and/or accepted manuscripts on their institution's website or in an open-access repository such as PubMed Central
- \*Authors can opt for a free automatic deposit of their accepted manuscript into the TSpace repository once their article is accepted in most of our journals

**Authors may submit to one of CSP's fully open access journals:**

***Anthropocene Coasts:*** focusing on multidisciplinary research related to anthropogenic activity in coastal regions

***Arctic Science:*** focusing on science and engineering related to northern Polar Regions

***FACETS:*** Canada's first and only open access multidisciplinary science journal

**Access is immediate and permanent for our open access journals and re-use is permitted under the terms of the Creative Commons 4.0 (CC BY 4.0) International Attribution License.**

## What's New?

### Geomatica Archives Now Available

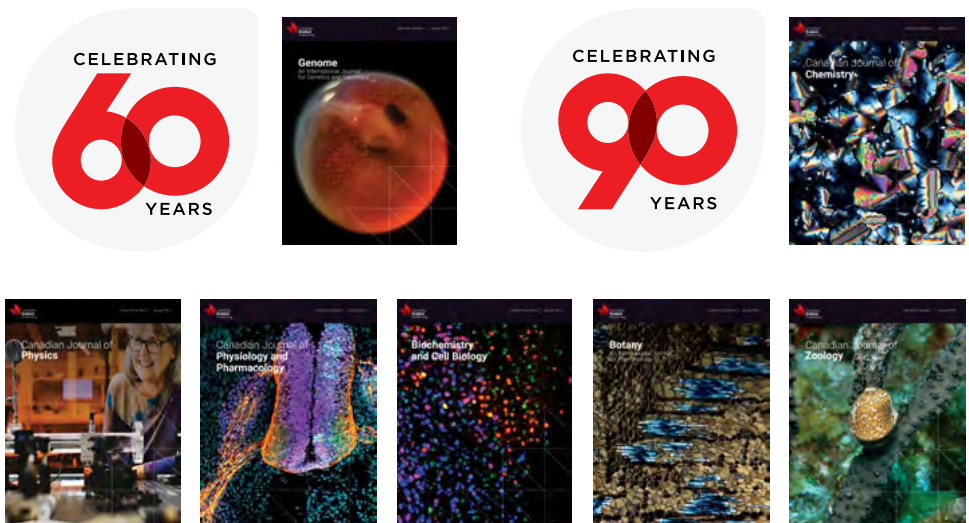

As part of our efforts to preserve our print-based archives and ensure the long-term availability and accessibility of our content, CSP has recently digitized over 1400 articles from *Geomatica*. Volumes 11 to 64. The articles from these volumes are now available as readable, searchable PDFs, and the abstracts and tables of contents as HTML. As a result, *Geomatica* content dating back to 1952 can now be rediscovered through online search engines and reference links.

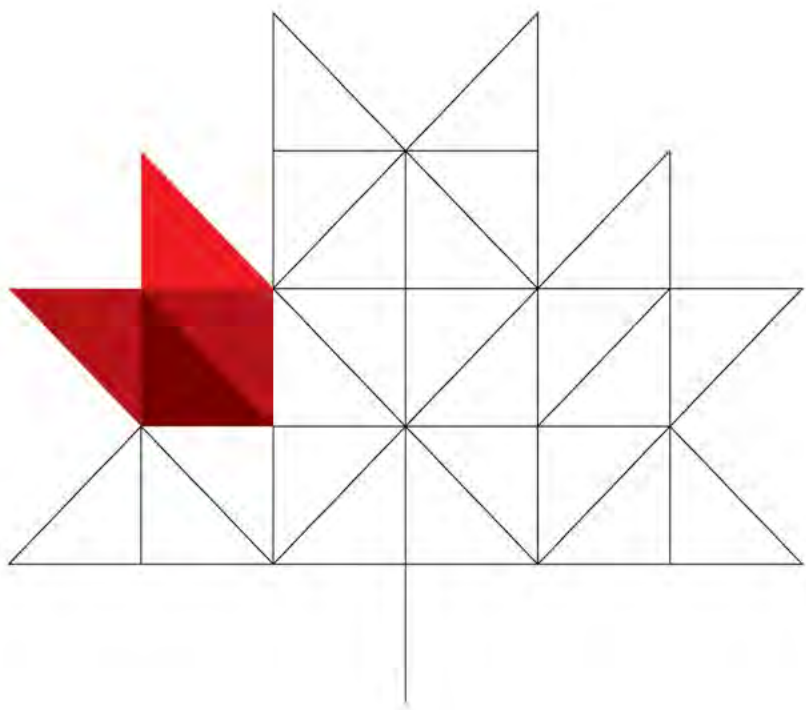

### New Website Coming in 2020

Keep a look out for the new CSP website—redesigned to best serve the research community with an improved user experience that ensures our journals are easy to discover, use, and share. We are excited to launch the new website to you and your patrons [cdnsiencepub.com](http://cdnsiencepub.com).

### Celebrating Journal Anniversaries

We are proud to share that the Canadian Journal of Chemistry, Canadian Journal of Physics, Canadian Journal of Zoology, Canadian Journal of Physiology and Pharmacology, Biochemistry and Cell Biology, and Botany celebrated 90 years of publication, and Genome celebrated 60 years of publication.

## Awards and Distinctions

In 2018, *FACETS* was awarded one of the inaugural Scholarly and Research Communication Innovation Awards. *FACETS* was recognized for its online publishing platform, Integrative Sciences section, and varied communication outputs.

## Scope

As Canada's first and only multidisciplinary open access science journal, *FACETS* publishes a broad range of technically sound research that contributes to advancing knowledge. *FACETS* currently focuses on

seven research areas: Biological and Life Sciences; Biomedical and Health Sciences; Data Science; Earth and Environmental Sciences; Engineering, Technology, and Mathematics; Integrative Sciences; and Physical Sciences. *FACETS* features research articles but also includes review articles, communications, notes, perspectives, editorials, and science applications forum papers.

**Indexed in:** Directory of Open Access Journals, Google Scholar, ReadCube, and more.

**Note to librarians:** Help us provide seamless access to open access content by verifying that our open access journals are ingested and indexed in your library catalogues.

# Canadian Science Publishing Pricing

**As a not-for-profit organization, we ensure that fair pricing does not come at the expense of client service or high-impact content.**

## **Reinvesting in our Mission**

As a not-for-profit, independent, scholarly publisher, Canadian Science Publishing's main priority is investing in our core mission: ensuring that scientific knowledge is easy to discover, use, and share.

### **Our revenues are used for:**

1. new technologies and tools that help us provide better service to researchers, our journal editors, libraries, and all our customers;
2. ensuring our organization is staffed with highly trained and skilled publishing professionals; and
3. protecting the long-term sustainability of our organization.

These reinvestments will enable CSP to serve the Canadian and global community of researchers for many years to come, through all the transitions and challenges facing scholarly communication today, tomorrow, and beyond.

## **Impact Beyond the Impact Factor**

**As a signatory member of the Declaration of Research Assessment (DORA), CSP recognizes that impact goes far beyond the Impact Factor.**

CSP displays Altmetric scores for all published articles and actively promotes article-level-metrics as well as plain language summaries, blogs, and other innovative methods of communicating scientific research.
